

## PHILOSOPHY

We welcome you and your child to the Lords Child Development Center. Our purpose is to provide stimulating educational experiences in a warm and a friendly atmosphere for young children. We provide an open environment that meets the needs of children.

Through play, we believe that children are free to master new knowledge at their own rate and in their own way. We believe that a child who trusts can learn. Each child is special to us. We want to stress to each child that he/she is a unique individual. We want to encourage his/her strengths then build on his/her natural curiosity and desire to learn. It is our intent to create an atmosphere and curriculum that nurtures physical, emotional, social, intellectual and spiritual growth for the entire preschool community.

Our staff works with parents to assist each child in achieving his or her optimum growth and development. We model and encourage the children in learning basic human values of respect, trust, honesty and care for others.
